AdvanTech to Assist Fast Enterprises in Manitoba

Boise, ID. July 1, 2001 - **AdvanTech, LLC** (www.advantechllc.com), an information technology management and consulting firm, today announced that it will provide analysis and programming services to Fast Canadian Enterprises in conjunction with Fast's implementation of its **GenTax[®]** tax processing system for the Province of Manitoba, Department of Taxation. Fast Canadian Enterprises is an affiliated company of **Fast Enterprises LLC** (www.gentax.com).

This agreement represents an increasing involvement by AdvanTech in the public-sector revenue agency market. The company has provided various services for an enterprise tax system replacement at the Idaho State Tax Commission. "We are very pleased about the opportunity to work with Fast Enterprises in Canada," states Rick Townsend, President of AdvanTech. "We feel that the **GenTax[®]** product represents state-of-the-art technology for tax processing and administration."

According to Martin Rankin, Managing Partner of Fast Enterprises, "AdvanTech's commitment and experience in the tax processing sector, coupled with their growing knowledge of **GenTax[®]**, give us a great deal of confidence in their ability to assist us and the Manitoba Department of Taxation with a successful project delivery."

AdvanTech provides information technology planning, acquisition, management and implementation support services. It combines a thorough knowledge of business management and operations, with a broad knowledge of technology, to provide optimal solutions for its clients.
